

Training programme

# « AirCargo Professional »

Certification Programme incl. IATA Diplomas

ADEM has developed this course in close cooperation with the air cargo industry in Luxembourg to give you the possibility to become a professional in logistics solutions

This training programme, aimed at job seekers registered with ADEM, has been designed at the request of several companies in the sector and therefore offers real recruitment perspectives.

## Training content

- Supply chain and transport management
- Professional English
- Administrative procedures in the air cargo domain
- Sales and marketing

With economic growth leading to an increase in freight volume, the demand for skilled people with know-how in supply chain and distribution is increasing and hence creating new job opportunities.

## Target

Job seekers aged at least 18 years, registered with ADEM and wishing to direct their career towards an activity area in full expansion.
