« Digital skills – Youth eAcademy »

Independent e-learning in the field of digital skills

With ADEM,
strengthen your digital skills via a free access
to the Belearn e-learning platform

The online training is aimed at young jobseekers under the age of 30 who are registered with ADEM and want to improve their digital skills

What is this training about?

The e-learning platform «Belearn» offers you the opportunity to take online courses in software applications: Word, Excel, Powerpoint, Outlook, Teams, OneNote,... or to foster your digital skills in topics such as cloud computing, data analysis, programming or cyber security.

The courses are offered in **the following languages**: French, German, English, Dutch or Spanish.

The language is selected when registering on the e-learning platform and cannot be changed afterwards.

Most courses are offered in French. It is therefore advisable to choose the French language if your language skills correspond at least to a B2 level.

Prerequisites

- Diplôme :** at least a high school diploma (equivalent to the BAC)
- Others :**
- less than 30 years at the moment of registration with ADEM
 - Motivation
 - be able to follow e-learning courses independently without instructions (personal computer and stable internet access, basic digital skills)

 DURATION	Access to the e-learning platform will be valid until 28 February 2022 (You may continue to use the platform even after your file at ADEM has been closed).
 LOCATION	Follow the online training from any place you want.
 CONTACT	Visit our website www.adem.lu/belearn and demand your personal access to the e-learning platform.
